INSTALLATION

Of Officers of Evergreen Lodge K. of P.

The presence of one of the largest attended meetings of Evergreen Lodge No. 38, Knights of Pythias, in months, held Thursday night, the newly elected officers were finally installed to serve for the ensuing six months. The installation services were conducted by Past Chancellor, G. H. Champlin, and the following officers were installed: Frank L. Lorian, chancellor commander; Ed Curtis, vice-chancellor; Herman Johnson, prelate; C. H. Champlin, master of exchequer; W. C. Wright, keeper of records and seal; W. D. Ennis, master of works; Allan Brame, master at arms; L. W. Henderson, inner guard; and J. R. Fears, outer guard.

The lodge voted to have an oyster supper and smoker on Thursday night, Jan. 19th. Each member of the lodge will invite one person who is not a member of the order to be present at the entertainment.

The chancellor commander named the following committee to make preparations for the entertainment, which is expected to be a highly enjoyable occasion: Entertainment committee, V. M. Williamson, W. D. Ennis and Carl Keach. Committee to make preparations for supper, H. E. Wiley, Geo. W. Walker and R. M. Tunks.

Mr. and Mrs. L. O. Brumfield and son Robert, have returned from a visit to Louisiana.

HOPKINSVILLE BOY

Accepts Responsible Position in Buffalo, N. Y.

Mr. Raymond Tichenor, a junior student in Chemistry at State University, has accepted a responsible position in the laboratory of the Lackawanna Steel Company, at Buffalo and left this city yesterday to spend a few days with friends in Newport, before leaving for the East. Mr. Tichenor is a graduate of Hopkinsville High School and was one of the most active students in the university, both in his class work and other branches of college work and his many friends here wish him success in his chosen work. —Lexington Herald.

HEARSE HOUSE.

Commodious Structure Now Ready for Funeral Cars.

Waller & Trice's new hearse house on Eighth street, between Main and Virginia, has been completed and is now ready for the reception of their funeral cars. The structure is large and commodious, fire-proof, and has sufficient capacity for all of their cars. The firm's black car, which was used for city work before their recent purchase of an elegant white car, has been remodeled and refinished throughout, hand carved wood panels replacing the glass, making this hearse one of the finest in service. This gives the firm two special cars for city work, in addition to their other hearses.

O. E. S. CHAPTER

Instituted at Pembroke Last Night By Carrie Hart Chapter.

A dozen or more members of Carrie Hart Chapter, Order of Eastern Star, went to Pembroke last night to institute an Eastern Star Chapter at that place. It was expected to start out with more than 20 members. The Chapter here is in a very flourishing condition with about one hundred members. Miss Sadie Petrie is the present Worthy Matron.

Moves to Town.

Judge Jas. S. Ragsdale, of Lafayette, has moved to the city and is boarding at Mr. W. D. Ennis' on Seventh street. He will probably enter upon the practice of law, in addition to looking after his farms in the country. Judge Ragsdale is one of the county's prominent and influential citizens and his return to the city after several years' absence is gratifying to his many friends.

MAYOR'S ANNUAL MESSAGE.

The city council met last night in an important meeting at which all of the annual reports were received and the mayor's annual message was read to the council which is here given:

To the Board of Council:

The City of Hopkinsville begins another new year with its affairs in better condition, in every way, than ever before.

FINANCES.

At the beginning of the year 1910 the city owed \$40,000 in bonds and about \$4,000 in floating debts, with a sinking fund of \$16,000. No bonds were retired last year, it being deemed best to wait until this year when they can be retired without paying a premium. The floating debt was paid, but a new one was created for \$8,000, due to the purchase of \$10,000 of real estate. The sinking fund was augmented by nearly \$9,000, and by next fall there will be money on hand to retire all but about \$5,000 of the bonds. During the year a new issue of \$40,000 of school bonds was authorized (and \$15,000 of the bonds sold) to erect a High School building jointly with the county. These bonds are payable, principal and interest, out of the school levy without increasing the levy, and do not affect the general revenues of the city.

FIRE DEPARTMENT.

During the year there were, 34 alarms, according to the report of Chief E. H. Hester, and property valued at \$197,155 was endangered, but the losses were only \$8,995.05 on buildings and contents. This practically duplicates the excellent record of the Fire Department for the year 1909, when there were 36 alarms and \$9,899.60 of losses. With a Fire Department unequalled anywhere in the state, Hopkinsville is fortunate indeed and the time is at hand when fire insurance rates in the city should come down from the present increased and burdensome schedule.

STREETS.

Much good work was done on streets and sewers, \$13,126.52 of the appropriation of \$14,000 being expended. During the year 5,407 yards of crushed stone was used at the contract price of 88 cents, in repairing old streets and building some new ones. A section of concrete street was put down on Seventh street at a cost of about \$1,500 per square yard, which may be regarded as the first permanent street built in the city.

During the fall 39,000 gallons of street oil was used on the streets, the citizens generously contributing about half of the expense of the oil and the labor of putting it on. The oil cost \$1,867.72 and the expense of spreading it was about \$300. The experiment was very satisfactory indeed and the money was well invested.

WORKHOUSE.

The workhouse has made a good showing and some needed improvements have been made. A new stable with capacity for storing a year's supply of provender was built and the old stable has been converted into a work room for the prisoners in bad weather. Female prisoners are also worked breaking stone and good results are expected to follow this innovation. Three new cells have been put in the Lock-up at a cost of about \$350.

CEMETERY.

During the year there were 95 interments, compared with 73 the year before. The platted lots are being sold rapidly, many country people purchasing lots. This accounts for the increase, as only 50 graves were dug for persons who died in the city. The southern entrance was improved by macadamizing the driveway. The pond dug three years ago failed to hold water and the plan to make a little lake in one corner of the grounds has so far failed. I again renew my recommendation that a chapel and public vault be provided.

BRIDGES.

The contractors who erected the

North Main street bridge have never put in a satisfactory floor. A portion of the contract price was held back and an amended contract was made providing for a new floor to be put in last spring. This contract was broken and I recommend that the contract be declared forfeited and that the city itself finish the bridge out of the unused appropriation.

POLICE DEPARTMENT.

The pay roll of the Police Department was increased a year ago to \$8,820 for eleven men and the Department, during the year, was practically self-sustaining, the cash collections being \$8,204.43. I doubt if any other city in Kentucky can equal this good showing. The department of the men has been uniformly good. There have been no cases of discipline. It is a matter of general satisfaction that all of the men are still in the city's employ.

CHARITY.

During the year 1128 bushels of coal were given to the sick and poor by the mayor, 536 to white and 592 to colored applicants. I have adopted new regulations to separate the worthy poor from the idlers and mendicants who seek to make themselves a burden to the city. A rigid inspection is made in every case brought to my attention. The amount expended for charity last year was \$321.

LATHAM REQUESTS.

The city has not yet come into undisputed possession of the park property devised by Mr. John C. Latham, the will still being a subject of litigation in the New York courts.

FRANCHISES.

The purchase periods of the Hopkinsville Water Co. and the Hopkinsville Sewerage Co., private corporations, were passed last year and will not come again until 1915. The Cumberland Telephone & Telegraph Co. has asked for a new franchise for 20 years and will be given an opportunity to purchase one on Jan. 19th, thus ending a contention over the franchise question that has been an unsettled issue for more than eight years. I am glad to report that this question, which at one time threatened to be the subject of litigation, has been adjusted by diplomacy instead of by a resort to the courts.

SCHOOLS.

The Council early last year made an appropriation of \$10,000 to the city schools for High School purposes and followed this donation with an issue of \$40,000 of bonds. In October the colored people voted for the establishment of a colored graded school. It is quite likely that both school systems will be

At Ossining, N. Y., a negro's head came very near balking an electrocution machine and several attempts were made before the current could be sent to a vital spot. The negro had a head of peculiar shape and the electrodes could not be adjusted to it.

Arch Hoxsey's body was cremated at Pasadena, Cal., Tuesday, after the funeral services. Dr. John Willis Baer, president of Occidental College, delivered the funeral sermon. He advised all aviators to devote themselves to the science of aviation and to abjure startling maneuvers.

a Long Mooted Question

Col. Mottley Notified That
His Pass Case Has Again
Been Taken Up.

A test suit which originated in this city involving a contract whereby a pass was issued to Col. E. L. Mottley and family for their lives, is to be taken to the Supreme Court of the United States for the second time.

In 1871 Col. E. L. Mottley and several members of his family were in a wreck on the L. & N. Railroad between this city and Louisville, and were badly shaken up. By a compromise with the company, it was agreed that Col. Mottley and his family should have a pass over the L. & N. system for the terms of their natural lives.

This pass was honored without interruption until the enactment of the Hepburn Rate Bill by Congress, which, among other provisions, forbade the issue of passes.

This brought on a conflict in regard to the Mottley pass. It was first tried in the United States Circuit Court here before Judge Evans, who decided that Col Mottley had a contract which could not be abrogated by the enactment of a subsequent law. The railroad took the case to the Superior Court and then to the Supreme Court of the United States, the highest tribunal finally declaring it had no jurisdiction.

The matter was then tried out in the state courts. The Warren Circuit Court declared in favor of Col. Mottley, and the Court of Appeals affirmed the judgment.

It was thought this settled the matter for all time, but Col. Mottley has just been notified that the L. & N. Company will take the matter again to the Supreme Court on a writ of error from the Court of Appeals of Kentucky.

This will involve a new tangle of the affair. The Supreme Court once declared in this same case it had no jurisdiction. If it assumes jurisdiction now, it will be reversing itself.

The amount involved is not great, and the railroad company is evidently acting for itself as well as for other roads in the settlement of a question that would affect all roads alike.

Since the pass was issued to Col. Mottley and family in lieu of pecuniary damages, it has been little used. Col Mottley is a homebody, and so are the other members of his family. It is not likely that the railroad fare for any year for the Mottley family would have amounted to more than a few hundred dollars.

But Col. Mottley is a fighter now, like he was from 1861 to 1865, and he is going to carry the fight to the bitter end.—Bowling Green Messenger.

Hay For Sale.

G. W. McKnight, Howell, Ky., has 50 tons of good clover hay for sale cheap.

Dumb Chills and Fever.

Douglasville, Tex.—"Five years ago I was caught in the rain at the wrong time," writes Miss Edna Rutherford, of Douglasville, "and from that time was taken with dumb chills and fevers, and suffered more than I can tell. I tried everything that I thought would help, and had four different doctors, but got no relief, so I began to take Cardui. Now I feel better than in many months." Cardui does one thing, and does it well. That's the secret of its 50 years of success. As a tonic there is nothing in the drug store like it. As a remedy for women's ills, it has no equal. Try it. Price \$1.00.

Examination of

County Pupils.

The examination for county school graduates will be held on Friday and Saturday, January 27 and 28. The examination will be held in this city and it is imperative that all pupils intending to enter the high school shall take this examination as the certificate of proficiency is necessary to gain entrance to the high school.

MAYOR'S ANNUAL MESSAGE

(Continued from First Page)

classified under the same general management by mutual agreement during the present years.

MORALS

After long litigation, the city finally won a suit in the Circuit Court annexing certain territory containing a disorderly house and the house was promptly suppressed.

RECOMMENDATIONS

The new census gives Hopkinsville a population of 9,419. Some of the inhabitants were undoubtedly overlooked and it is known that the figures are of questionable accuracy, but it is gratifying that even these imperfect returns show a percentage of gain exceeded by only one other city in the State, a mining center in the extreme eastern part of the State. The figures show that Hopkinsville is growing more than twice as fast as Louisville and that it has passed one third class city and would have passed another but for its annexation of populous suburbs. The city is now eligible to the third class and when transferred by the General Assembly of 1912 will be governed by a different charter. The council to be elected this year will be the last chosen by wards. The next succeeding board, to be chosen in 1913, will be elected by the votes of the electors at large. At the same time a mayor and police judge will be elected in the same way. While the city will operate under its present charter for three years more, the council should begin at once to prepare for the coming change.

Under the third class charter the council must be composed of not less than twelve members and the present council should in providing by ordinance for the election of their successors increase the number of councilmen to 12 and divide the city into either 6 or 12 wards. Under the new charter, each ward has its own member or members, but all of the voters vote for all of the councilmen. I would recommend that the number of councilmen be at once increased to 12, giving the larger wards the additional members and that the work of re-districting for the new election be done during the year. It has been demonstrated to me by the observation and experience of five years that there are not enough councilmen to look after all of the details of a city of 10,000 people without imposing burdensome duties upon members whose compensation for public service is altogether inadequate. I believe you should immediately pass an ordinance adding five more members to your present membership and follow this by electing new members to fill the places created. This would enable the present year's business to be transacted by a council raised to the standing and numerical importance of a governing body of a city of the third class.

In view of the fact that the city is threatened with litigation in the federal courts, I would suggest that the employment of an attorney by the year be authorized, said attorney to be retained as corporation counsel to look after all legal matters in the higher courts.

The one crying need of the city is a City Hall and I hope to see something done this year to supply this need.

The park property should be taken charge of this spring to the extent of planting trees and making plans for the future. A year will be lost if trees are not planted during the coming spring and this matter should not be overlooked.

I am sorry to report that the projected improvements of the Pioneer Graveyard have not advanced further than the planting of trees. The appropriation of \$100 has not been used. I hope to have the council appropriate at least \$150 more, which will create a fund large enough to start the work and arouse public interest to a point where it can be carried on by popular subscriptions.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for each case that it fails to cure. Send for a free trial.

Address: F. J. CHERRY & CO., Toledo, O.

Sent by all Druggists, 75c.

Take Hall's Family Pills for constipation.

EXTEND LIMITS

On the South side of Virginia street is a thickly settled residence section that should be taken into the city—and the advantages of public schools and utilities extended to its inhabitants. The city limits should be extended by ordinance to the western and southern lines of the rights of way of the Illinois Central and Tennessee Central railroads. The future growth of the city should be provided for by doing this without delay.

CHAS. M. MEACHAM, Mayor.

The report of City Auditor and Treasurer H. L. McPherson for the first time in recent years shows a surplus in the general fund of more than \$40,000 in the various funds, every one showing a surplus as follows:

General Fund.....\$3,167.15
School Fund.....10,269.45
School Sinking fund.....1,755.70
High School Board Fund.....1,223.88
Sinking Fund.....23,927.27

Cash on hand Jan. 1.....\$40,313.45
This amount has been increased by about \$6,000 since Jan. 1. The city's finances are in excellent condition.

TWO NATIVES

Of Christian Pass Away In Paducah.

Mrs. Sarah Collier, aged 67 years, died in Paducah, Wednesday night, following a few days' illness of pneumonia. Mrs. Collier was born in this county, where she resided for forty years, when she moved to McCracken county. She was a member of the Baptist church.

William F. Bradshaw, a native of this county, and one of the leading members of the Paducah bar, died Wednesday, after an operation for locked bowels. He was 64 years old and a son of Albert Bradshaw. Mr. Bradshaw had held the office of county attorney, was later county treasurer, and also served as commonwealth's attorney for two terms. His wife was Miss Virginia Wheeler, of this county, who, with two children survive.

D. A. R. Meeting.

The Col. John Green Chapter, D. A. R. will meet Monday afternoon at 2:30 o'clock, with Mrs. Chas. M. Meacham.

Who Was There That You Knew?

IN the shadowy ranks of those who marched to defeat or death or victory fifty years ago in the mighty conflict that convulsed this great nation, is there father or grandfather or uncle of yours? Would you like to see a photograph of him in that long ago day of his youth—a photograph that he never knew was taken? Perhaps we can show you one; and in any case, we can tell you a story, stranger than any detective fiction, of 3,500 priceless photographs that were lost and are found again.

3,500 Long Buried Photographs of the Civil War

THEY were taken by the greatest photographer in the United States of that day; they were bought by the United States Government for \$30,000; they were buried in the War Department for 50 years—they are buried there still. But a duplicate set was kept by the photographer—who died poor and broken down; that duplicate set was knocked from pillar to post for nearly 50 years, until it was discovered by a New England collector, J. Pierpont Morgan tried to secure the collection—Ex-President Garfield and General Benjamin F. Butler said it was worth \$150,000—yet with the help of the Review of Reviews, the entire collection has been gathered into 10 great volumes and is placed within your reach at less than the value of one of the photographs. It is the one accurate, impartial history of the Civil War—never heard before. Taken under protection of the Secret Service, these photographs bring to light thousands of little-known phases of the war; they penetrate to strange places and record strange things.

REMEMBER:—Our privilege of selling these books is limited as to time. Our supply of Free Portfolios is limited in quantity. You must be prompt to secure either. Better mail this coupon today.

Review of Reviews Company
13 Astor Place, New York

12 of These FREE For the Cost of Mailing

In order to give you some idea of the greatness of this work we will send you 12 superb reproductions of the photographs free of charge in a handsome portfolio. These photographs are very expensive and valuable, but you send only 10 cents to cover the cost of mailing. They are not only interesting from a historic standpoint, but, framed, make a splendid addition to your library walls.

At the same time we will tell you how the Review of Reviews can offer this \$150,000 collection of 3,500 photographs at the price the United States Government paid for three of the pictures.

Send the coupon at once.

TO MAKE RICH BISCUIT

VARIOUS RECIPES FOR MIXING
THE DOUGH.

A Measure of Flour, Add Salt, Baking Powder, Milk and Lard—Handle Mixture as Little as Possible—Mix With Knife.

"America seems to be peculiar in its impromptu bakings of Parker house rolls, biscuits, and 'johnny cake,'" says a recent writer, summarizing the experience of a round-the-world traveler with breads, brood, etc. Just why the biscuit, and particularly the baking powder biscuit, should be considered such a dainty I could never understand. Perhaps it is because it really does require considerable skill to make it. Cream biscuits were my own first proud accomplishment, but their making was forced upon me, albeit my efforts were rewarded with a bouquet which I did not deserve, because so much had been done for me that they could not be a failure. It is easy to understand why beaten biscuit should be considered something fine, but as for the other, it is easy to see why the unsophisticated Englishman, accustomed to calling all forms of crackers biscuits, should not be altogether satisfied with some of the things he gets in America called biscuits.

Hot Biscuit I.—To one pint of sifted flour add a half teaspoon of salt, one teaspoon of baking powder, and sift again. Work in very lightly with the fingers a tablespoon of lard. When thoroughly mixed cut into it with a knife about one cup of ice cold milk. Roll out on a well floured board about three-fourths of an inch thick and cut with biscuit cutter. Bake in hot oven. The secret of good biscuit is to have the dough very soft, to handle it as little as possible, and to bake in a very quick oven.

Hot Biscuits II.—One quart of flour a pinch of salt, two tablespoons of lard, two teaspoons of baking powder. Wet up with cold water, roll out softly an inch thick, and bake in quick oven. Biscuits made with lard and water are much lighter and better than when butter is used.

Quick Biscuit.—Two cups of flour, one-half teaspoon of salt, three tablespoons of lard, three teaspoons of baking powder, one cup of water. Sift all the dry ingredients into a bowl and rub the lard lightly through them. Stir in the water, drop the dough into greased gem pans, and bake in a quick oven.

Emergency Biscuit I.—Two cups of flour, four teaspoons of baking powder, one-half teaspoon of salt, two tablespoons of snowdrift, one cup of milk. Mix shortening with flour to which salt and baking powder have been added. Add milk. Drop mixture from spoon, allowing about one tablespoon to each biscuit. Bake 20 minutes in moderate oven. This makes from 12 to 14 biscuits.

Emergency Biscuit II.—Two cups of flour, four teaspoons of baking powder, one-half teaspoon of salt, two tablespoons of butter, one-half cup of milk, one-half cup of water. Sift dry ingredients, cut in butter, add milk and water gradually. Drop mixture in greased muffin tins and bake in a hot oven 12 minutes.

The Home

In preparing eggplant press it under water instead of just salting, as is customary. This prevents the vegetable from turning black and keeps it much crisper.

Tomatoes cannot be cooked in a hurry. If you cannot give them at least an hour, preferably two, do without them for that time. They will taste raw and offend the palate of one who knows how they should taste.

Never use sand soap on a porcelain-lined tub or washstand. There is no surer way to ruin the enamel. What's the use of soap? It means only extra work, and here is always the coal oil rag, which is better.

Lamp chimneys can be quickly cleaned by holding the hand over one end and putting the other end over the spout of a simmering teakettle. Rub at once with a smooth cloth or tissue paper.

Mahogany and other hard woods can be kept in good condition by wiping off with a chamomile skin wrung from cold water and immediately polishing with a dry piece of chamomile.

Squash Pie.

A pint of steamed, mashed and strained squash, two cups of milk, one cup of sugar, two eggs beaten light, half a teaspoon of ginger, one teaspoon mixed mace and cinnamon. Beat all well together and bake with under crust only.

When Buying Canned Goods.

Before buying canned fruits and meats see if the top is flat or depressed. If the top has bulged out, then air has entered the tin and fermentation set in.

GROW BULBS IN WATER BOWL

Chinese Sacred Lily, Hyacinth or Narcissus May Be Had, and Are Inexpensive.

Have you ever tried growing flowers in a bowl of water? If not, you should try a few this winter. Procure some good bulbs of the Chinese Sacred Lily, Hyacinth or Narcissus and plant them in bowls or deep dishes with sand or pebbles to hold the bulbs in position.

Then pour in clear water until the bulbs are half under water and place in a south window if convenient, or

Bulbs for Winter.

where they will have the benefit of the sunlight. Add water as needed and protect from cold the same as other winter blooming flowers.

All of the above named bulbs and a number of others may be had at any time during the winter and are nearly all of them inexpensive.

Several Hyacinths or Narcissus may be placed in one bowl; from six to ten will give a good result. Only one or two of the Chinese Lily bulbs should be planted in a bowl.

The Chinese Lily is the queen of plants for growing in water. The blossoms are pure white with yellow cup shaped centers measuring one and a half inches in diameter. The last for several weeks and are exceedingly fragrant.

The buds shown in the illustration carry the germs for blossoms for next spring. They are the bulbs for winter indoors blooming. From left to right the bulbs are Jonquil, Chinese Lily, Tulip.

MOISTURE IN FLOWER POTS

Ingenuous Arrangement for Supplying Water to Plants Without Trouble of Leakage.

A flower-loving genius has invented a box for supplying moisture to plants in window-boxes, stationary stands or other receptacles by which water may be supplied once a week or even at longer intervals.

The illustration shows that the water is poured into the bottom of the box or pot through a tube in the corner which extends down to the reservoir. This reservoir is from one to two inches deep and on top of it is placed a false bottom which supports the soil. Inserted in the holes to the false bottom are sponges which touch the extreme bottom of the box and ex-

Self-Watering Hanging Basket.

tend upward into the soil in which the flowers are planted. The water is drawn upward through these sponges in sufficient quantities to maintain a uniform moisture in the soil and at the same time sufficient air is supplied with the water to insure giving the plants a thrifty and healthy growth.

This is a perfect application of the principle of sub-irrigation and does away with a great deal of trouble in regard to frequent watering and leaking which the old style pots and wooden boxes entailed.

HORTICULTURAL NOTES

Plants with large leaves should be washed.

Learn to prune, spray and cultivate your trees skillfully.

Fruit growing is a great business when followed properly.

The large chrysanthemum blossom is becoming generally popular.

The cow peas add humus to the soil, which enhances its water holding capacity.

Aside from enriching the soil in nitrogen the cow pea improves its general condition, rendering it more porous.

No flower collects insects more rapidly than ivy, for which reason ivy should be kept out of the collection of rare plants.

During the past 15 years the Catalpa Speciosa has come rapidly to the front on account of its immense value along commercial lines.

It will pay any one interested in fruit growing to study the catalogues of different reliable nurseries and post up on different varieties.

If, after taking the flowers into the house, you discover the troublesome meal bugs, aphids, green flies and tiny red spiders, begin at once to kill them.

The currant worm can be effectually destroyed by gathering the leaves containing the young larvae, which may usually be found on the under side of the leaves.

THE CENTAUR COMPANY, NEW YORK CITY.

From Dr. Cook's latest photograph taken at Poughkeepsie, N. Y., November, 1909, for Hampton's Magazine. Copyright 1910, Benj. B. Hampton

Dr. Cook's Confession

In the January issue of HAMPTON'S MAGAZINE—the magazine that published Commander Peary's Own Story of the Conquest of the North Pole—Dr. Cook frankly admits that he does not know whether he reached the North Pole or not.

Since the sudden and mysterious disappearance of Dr. Frederick A. Cook in November, 1909 until the publication of this series no word has been received from this man who stood so conspicuously for a brief while before the world, the recipient of unprecedented honors. Why did Dr. Cook disappear? Was not this a tacit admission that he had presented a fraudulent claim to the discovery of the North Pole? Or did he ever possibly believe in himself? Where has he been? What has he done?

In his story—a human document of the most extraordinary interest and importance—Dr. Cook has held up his own naked soul for public examination; has searchingly and mercilessly analyzed the mental processes which preceded his extraordinary actions since his return from that barren world where, he says, "I felt what few men of cities feel"—the tragic isolation of the human soul—a thing which, dwelt upon, must mean madness, I think I realized the aching vastness of the world after Creation, before man was made.

On its own merits, we print Dr. Cook's Own Story in the January issue of

NEW CHURCH IN LABRADOR

Will Have Pews With Backs and Lamps Instead of Candles as in Old One.

Our houses here on the Labrador coast are built almost entirely of wood. Our old church, which was built in 1814, is nearly 100 years old. It is no wonder, therefore, that most of the timbers in the foundation are decayed and that the walls have given way in places, so that often during a gale we fear an entire collapse. The new church will soon be complete, and this autumn we shall be glad to move into the new premises.

In more respects than one the new church will be an improvement on the old. In the former, the benches were without backs, and during the winter nights light was derived from candles and the space was limited. The new church will have benches with backs, so that the worshippers can sit comfortably, and the lamps—a gift from a friend in London—will not only give a better light, but will also help to decorate the church. To our Eskimos the new church is a great innovation; they call it "God's igloo" (God's house). They have not seen anything better or more beautiful, and they believe it to be the prettiest place in the universe. —Christian Schmitt, in the Christian Herald.

TASTED JUST LIKE TURKEY

Pathetic Incident of Experience as Police Reporter Related by Jacob A. Riis.

Jacob A. Riis, the brilliant author and journalist, was discussing in New York his experiences as a police reporter.

"They were intense experiences. The pathetic ones had, indeed, such an intensity that they couldn't be used in literature—they'd seem overdrawn."

"For example, one cold and dreary Thanksgiving evening, as I passed a famous restaurant, I saw a little urchin standing before the area. Through the area gratings the kitchen, brilliantly illuminated, could be seen. The cook, in his white dress, basted a half-dozen great brown birds."

"Hi, Timmy!" the urchin cried, and a second youngster turned toward him.

"Hi, Timmy, come an' eat yer crust in the smell from this here kitchen. It makes it taste just like roast turkey."

AN OLD WELSH COAL MINE.

The Welsh coal industry, which is now disorganized by labor troubles, is less than a century old. Until 1829 the small amount of coal mined in Wales was consumed locally. Then the passing of the London smoke act created a demand for smokeless fuel. Two members of the Coal exchange journeyed to Wales and interviewed Mrs. Lucy Thomas, the owner of the Merthyr colliery, the largest then worked. They found her sitting in a hut at the mouth of the pit with a basket on her head, in which she placed the money as she received it from the purchasers of coal. After some difficulty and the production of the purchase money in gold they persuaded her to sell them a sloop load at four shillings a ton. This was conveyed to Cardiff on the backs of mules, and when shipped to London sold readily at 18 shillings a ton.—Pall Mall Gazette.

NO CAUSE FOR GLOATING.

"I suppose you've heard that I'm going to marry Mr. Green," she said to one of her old friends.

"No," he replied, coldly.

"You don't seem to be very enthusiastic about it."

"Why should I be? Not knowing Mr. Green, I haven't any grudge against him."—Catholic Standard and Times.

CAUTION.

"Shall I have this prescription filled without further consultation?" asked the patient.

"Certainly," replied the physician.

"Why not?"

"I thought maybe I'd better call in a handwriting expert."

BARGAINS.

Uncle Hiram—So ye won't pay 50 cents to see "High Life in New York" at the oprey house tonight?

Uncle Eben—Not much, when I cin wait till next week and see "Low Life in Paris" fer a quarter.—Puck.

SHOULD EXCHANGE CHILDREN

German Professor Urges Exchange of Children Between Germany and United States.

A German professor, speaking in this country, has proposed that there should be an exchange of children between Germany and the United States. We were now exchanging professors between the universities, he said, and the work for a better mutual understanding of each other could be extended immensely by German and American parents exchanging their children during a part of their school years. This custom has been in fashion between England and Germany and between England and France for many years, and it has worked out satisfactorily. One can easily see how between countries so near together as those it would be in some cases an advantage for the children of one nation to become acquainted with the language, life and customs of another by means of a residence away from home. This particularly would be the case of young men who expected to engage in business. It would, however, take considerable courage for American parents to part with their children in order to have them reside even for a short period with strangers in an alien land, and it is doubted if many would consider the sacrifice justified by the probable advantage of such a sojourn.

AN EASY WAY IS FOUND

Actress Hits on Charge to Support Her Plea for Divorce From Husband.

"What can I do for you?" asked the eminent lawyer when the beautiful actress had taken a seat.

"I want a divorce."

"Um. Has your husband deserted you?"

"No. I can't say that he has."

"Has he ever been cruel to you?"

"Oh, dear no! Frank is one of the kindest men in the world."

"Well, what charge do you wish to make against him? Have you any letters that he ever wrote to another woman?"

"No. He has been perfectly true to me, as far as I know. Really, I can't think of a thing to charge him with; but surely you can think of some way. I simply must have a divorce. Why, I'm engaged to be married to another man next spring, and it would be awfully embarrassing if I still had a husband when the wedding day came."

"Yes, I should think it might. Perhaps you might enter a plea of nonsupport."

"That's it—the very thing. He supported me one season before we were married, but since then he has always been in some other company."

WHAT'S IN A NAME?

Should you feel as passionate an interest in Beatrice Cenci under her English name of Miss Rags.

Calderon Della Barca has a grand sound, for instance, worthy a poet, but Boat-Kettle is not so romantic. Did you ever think how very few of the celebrated painters of Italy are known by their real names? Almost all of them have only their nicknames. Tommaso Guido is Masaccio, or Dirty Tom; Guercino is Squint Eye; Tintoretto, the Little Dyer; Giorgione, Big George; Domenichino, Little Dominick.—W. W. Story, "Conversations in a Studio."

A PRIMER OF LIFE.

Misery doesn't really like company, but when company won't get out of his way he has to be sociable.

Perhaps Lazarus laid at the rich man's gate because some philanthropist told him fresh air was good for him, and didn't charge him a cent for the information.

It's one thing to celebrate a holiday on the summit of the Halleluia hill and another to so overdo it that you come rolling down and have to ask your critics to brush the dust from your garments.—Atlanta Constitution.

SIMPLIFIED SPELLING?

The Man Between the Handles eyed the field filled with stubble and rocks, clucked to his horse and said, determinedly:

"I will plough through, though rough the field."

Shall we foreigners make it, "I will pluff thruff, thuff ruff," or "I will plooo throoo, theoo roo?"

It's easy to reach Texas on the

The Cotton Belt is the quick and direct line to Texas, through Arkansas. It runs two trains, daily, Memphis to Texas, with through sleepers, chair cars and parlor cafe cars. Trains from all parts of the Southeast connect in Memphis with these Cotton Belt trains to the Southwest.

Low Fares Southwest

Twice each month very low fare tickets will be sold via the Cotton Belt to points in Arkansas, Louisiana, Texas and Oklahoma. Stop-overs are allowed and the 25 day return limit gives you plenty of time to look around. Take advantage of these low fares and investigate the wonderful opportunities open to you in the Southwest.

Don't wait until the big opportunities are gone, write today and tell me where you want to go. I will send you a complete schedule and tell you the cheapest cost of a ticket. I will also send you free, our books on Texas and Arkansas, with county maps in colors.

The Athenaeum.

The Athenaeum meeting Thursday night was an unusually pleasant and profitable one, with twenty-one members and three visitors in attendance.

Prof. Davis A. Clark read a paper on "Shakespeare's Character of Brutus," which was an intensely interesting production, showing careful preparation and deep thought.

Mr. Lucian H. Davis read an excellent paper on "Fraternalism," a discussion of the good being done by the many noble fraternal order that are helping to make the world better.

A general discussion followed and the program altogether was one of the best for many months. Those present were Rev. G. C. Abbott, Dr. Austin Bell, Dr. T. W. Blakey, Capt. A. G. Chapman, Prof. D. A. Clark, L. H. Davis, J. W. Downer, A. H. Eckles, L. E. Foster, Geo. E. Gary, Barksdale Hamlett, Col. Jouett Henry, H. W. Linton, R. F. McDaniel

Chas. M. Meacham, T. J. McReynolds, Frank Rives, W. T. Tandy, S. Y. Trimble, H. C. Smith, Ira L. Smith, T. C. Underwood and James West. Also as visitors Dr. Edmund Harrison, Judge Joe McCarroll and Mr. Rhodes.

Purely Personal

Miss Lillie Belle Phelps left Thursday for Middlesboro to visit Mrs. R. J. Johnson.

Mr. Chas. S. Jarrett has returned from a visit to Springfield, Ohio, much improved in health.

Mr. W. H. Kieke, Jr., will leave for Hopkinsville in a few days to make his home for a time with his sister, Mrs. Jas. Cooper.—Paducah News-Democrat.
